PROFILE OF THE INSTITUTE

Vasavi College of Engineering (VCE) was founded in 1981 by Vasavi Academy of Education. The mission of the College has been to equip young engineers with competitive technology and nurture their holistic development towards building a better society. With dedicated efforts for three decades, VCE has emerged as a reputed center of learning in Engineering and is currently offering 6 UG and 5 PG programs. It is affiliated to Osmania University and recognized by AICTE. The stake-holders have rated VCE as one of the top three engineering institutions in the state.

ABOUT THE DEPARTMENT

The department has strength of 10 faculty members. All the faculty members of the department are well qualified and experienced. The labs of the department are equipped with computer systems and latest versions of software such as Visual studio, Rational suite, Oracle 11g database server, Redhat linux server, etc. The department is actively involved in organizing workshops, seminars, Expert lectures and Industrial visits. A few faculty members are actively involved in research.

OBJECTIVE OF THE CONFERENCE

Data Warehousing and Data Mining has been widely accepted as a key technology for enterprises and organizations to improve their abilities in data analysis, decision support and the automatic extraction of knowledge from data. With the exponentially growing amount of information to be included in the decision making process, the data to be considered becomes more and more complex in both structure and semantics. New developments such as cloud computing add to the challenges with massive scaling and new topics of data. Con-discovery from this huge amount of heterogeneous complex data builds the litmus-test for the research in the area.

TARGETED AUDIENCE / PARTICIPANTS

Representatives from Academia, Industry and Government Organizations who are either involved or have interest in Data Mining Concepts and Techniques and their applications. Research Scholars are welcome to take part in the conference.

CALL FOR PAPERS

Papers are invited in the following areas of Computer Applications. All submission must describe original results. Papers that are already published or currently under review by another conference or journal must not be submitted. Selected research work will be published in the proceedings.

The areas included but not limited to :

- ❖ Data Mining
- ❖ Cloud Computing
- ❖ Mobile Computing
- ❖ Network Security
- ❖ Advanced Databases
- ❖ Optimization Techniques
- ❖ Graph Theory
- ❖ Cryptography

PAPER SUBMISSION GUIDELINES

Format : IEEE Format, Double Column.
Page : Not exceeding 8 pages
Size : A4

Tables and figures should be sent in TIFE or JPEG Format.

Papers should be sent to

ncdmvce@gmail.com
