11	Mr. I. Navakanth, Asst. Professor	
12	Ms T. Jalaja, Asst. Professor	

Chairman welcomed the members and introduced the introduced CBCS.

SYLLABUS & SCHEME OF INSTRUCTION

- Distributed Computing course can also include concepts like Hadoop, MapReduce instead of CORBA
- Deep learning topic can be included in Data Mining or can also be included in Neural Networks
- Security aspects and issues in Cloud Computing can be elaborated.
- Course on IoT can be offered as an elective for promoting Inter disciplinary learning
- Experiments must be focused to expose students to the recent advancements in the field of learning, and atleast 20% of the lab experiments can be done by the students independently to promote innovative thinking
- Both Data Mining and Machine Learning are in the same semester under electives.
- The course Information Storage & Management syllabus can include more concepts adopted in the Industry.
- In the course Advanced Databases, one unit on 'NoSQL Databases' can be included if it is not covered in any other subject (Cloud/Big Data courses)
